Address	38 Barrow Road Shippon Abingdon OX13 6JF
St Helen Without PC's comments	<p>St Helen Without Parish Council is concerned about flooding and flood risk to neighbours in relation to the application for discharge of conditions for land adj to 38 Barrow Road.</p> <p>This discharge application would appear to be premature as the site remains flooded, the workmen on sight have removed more soil and made the trenches deeper but still they are full with water. The Parish Council needs reassurance for residents that any work on site will adequately deal with the flowing water from the stream that goes across the site. It is not just standing water, it is a watercourse and no sooner is it drained than it refills the groundworks. Plots 1 and 2 remain a quagmire. Plots 3 and 4 remain submerged and it appears to the untrained eye that they have hit the water table which we believe is relatively high in this part of Shippon. The Parish Council would like written confirmation from the Vale Planners that adequate steps will be taken to ensure flooding in the future will not be a problem to the new properties being built or any other properties bordering onto this development before and discharge is granted.</p>

Date	4 th February 2022
Description	Proposed new garage.
Address	Byways Cothill Road Cothill Abingdon OX13 6QQ
St Helen Without PC's comments	St Helen Without object to the planning application. St Helen Without Parish Council have no objection in principle to the building of a 3 car garage on this large plot which will serve the existing dwelling. Neither do the Parish Council have any objection with the design or materials being proposed. We do however have concerns with the proposed position of the garage in front of the dwelling and close to the road. The plot is in the green belt, in a rural setting on a straight road in the small hamlet of Cothill. There is a general openness to the street scene at this point and we don't believe the garage in this position complements that openness of the setting as it would be closer to the highway than any other building. The plot has ample room for the garage to be built to the rear of the dwelling and that we believe would be the better option
Decision	Refusal of Planning Permission on 8th July 2022

Description	Change of use from a small 6-person HMO (Use Class C4) to a 8-person HMO (Sui-Generis)
Address	3 Stowford Cottage Faringdon Road Shippon Abingdon OX13 6LN
St Helen Without PC's comments	Planning Application P22/V1380/FUL. 3 Stowford Cottages, Faringdon Road, Shippon, OX13 6LN. The following remarks are made by St Helen Without Parish Council. (SHWPC) SHWPC strongly OBJECT to this planning application for a number of reasons which are set out in the following comments. Where necessary we will cross refer our remarks to the appropriate paragraph numbering as used in the ET Planning; planning, design and access statement, (i.e. ET 1 etc) Development History: P21/V3215/HH: Currently 3 Stowford Cottages is subject to

	<p>the planning consent given by the Vale of White Horse District Council on the 17/02/2022 for the demolition of existing utilities extension and rear conservatory and the erection of a two storey side extension and a single storey rear extension. The plans supporting the application show a modern 4 bedroom family home: drawings 21-20 3PL01, 3PL02, 3PL03 and 21-20 3PL04-A. To date that planning permission has not changed so 3 Stowford Cottages is a 4 Bedroom House. When reviewing this application it is important to also review the recent planning consents given under the following planning references: P21/V3212/HH: 1 Stowford Cottages which was for demolition and building works to create a 4 bedroom house. P21/V3214/HH: 2 Stowford Cottages which was initially for demolition and building works to create a 6 bedroom HMO. The SHWPC objected to this application and the Vale Highways Liaison Officer found the application did not meet Local Core Policy 33. Later the application was amended when new plans were presented and the property changed to a 4 bedroom house. The remarks made by SHWPC in respect of all three of these planning applications are recorded under each reference. P22/V1380/FUL: 1) This planning application is wrong as 3 Stowford Cottages is a 4 bedroom house as approved in the planning permission granted on 17 February 2022 under reference P21/V3215/HH. It is not, and never has been, a 6 bedroom HMO. 2) Therefore ET 1.1 and 1.2 are incorrect as all the detail in the document is based on misinformation. 3) ET 1.3 further adds to the confusion and misinformation as plan 21-20 3PL05 Existing Elevations and Floor Plans is wrong. The correct floor plan for this building is 21-20 3PL02 as shown in application P21/V3215/HH. 4 bedrooms, 2 with en-suite shower rooms and a family bathroom on the first floor and an open plan kitchen/family room, playroom, reception room, study and utility room on the ground floor. 4) Similar errors are made in the application form. Under "Description of the Proposal" it refers to change from a 6 bed HMO to an 8 bed HMO; similar errors are made under "Existing Us". SHWPC are concerned by this application and find it hard to accept that these major errors can be made consistently and in all documents without being spotted and corrected and then signed off by two planning professionals. 5) This application has caused much concern in the locality with a number of parishioners contacting the Parish Council worried about this application and the effect on the street and neighbourhood. Two of them visited the site and went in number three - before being asked to leave by the contractors on site who refused to let them see upstairs. What they did see on the ground floor were bedrooms and showers already constructed - indeed work continues at pace. This is extremely worrying as the planning application was only registered with the Vale Planning Department on 1 June 2022. On the application form under Description of the Proposal to the question, "has the work started" they state NO, which is obviously incorrect. On the face of it they seem to be paying scant regard to the planning process and we urge The Vale Planners to visit and inspect the site before any decisions are made. 6) Planning History ET 3.1 quotes P21/V3215/HH but they fail to say that permission was only for a 4 bedroom house. 7) ET 4.3 Use and Amount is incorrect. Therefore all the following comments ET 4.4 to 4.8 are incorrect as they are based on the incorrect information set out in ET 4.3. 8) ET 4.8 Access and Parking seems to have been cut and pasted from another document: it refers to access from Westminster Way - there is no Westminster Way in Shippon, the property is on Faringdon Road. However it does say that it has 4 parking spaces and no more are proposed. SHWPC is led to believe the number of car park spaces are not suitable for a property with 8 bedrooms. In an HMO each bedroom is treated as a separate household and potentially need their own car. Each household needs to be able to access the highway without a neighbour moving their car. This would not be</p>

	<p>possible under the proposed development and therefore not in line with Oxfordshire Parking Standards or VWHDC local core policies 33, 35 or 37 as stated by the Vale Highways Liaison Officer in remarks on the original 6 bed HMO application for 2 Stowford Cottages, P21/V3214/HH. Moving from 6 bedrooms to 8 bedrooms only increases the noncompliance to Vale Planning Policies. 9) If fully occupied there could be up to 16 cars and no available parking for 12 of them. Furthermore there is no allowance for any visitor parking which could further exacerbate the problem. It would be too dangerous for vehicles to be parked in Faringdon Road as this is a major route through the village and on into Abingdon. 10) ET 5.8 and ET 5.11 continue the misconception, it is not an additional 2 bedrooms, it is changing a 4 bedroom home into an 8 bedroom HMO. Both statements are misleading. 11) Although Faringdon Road has no parking restrictions or yellow lines all the properties along both sides of Faringdon Road have large plots and ample on site parking so the road being restricted by parked vehicles has never been an issue. Also the location is approximately only 100 metres from the Barrow Road and Faringdon Road junction which is an extremely busy and dangerous junction. The Wootton and St Helens Without Joint Neighbourhood Plan (NP) specifically covers this at Policy IN3.1 which states that, "Development proposals that will or are likely to result in severe impact on the junction of Barrow Road and Faringdon Road will not be supported". [SHWPC would stress that this Policy, as all policies in the NP, apply to all developments however large or small and are in no way restricted by the size of any development] We believe there is inadequate parking for the proposed development at 3 Stowford Cottages and any overspill into Faringdon Road would be hazardous to both Road users and pedestrians (many of which are children from 4 nearby schools) and therefore the policy of the NP has not been met. 12) The applicants state the need to meet local needs and local market demand. Within the small, semi-rural village of Shippon there is no demand for the type of property proposed here which would see a transient population rather than allowing local people to remain in their home area. The evidence gathered to support the NP made that abundantly clear. The need in Shippon is for housing for younger people, i.e shared ownership accommodation and starter homes and homes for older people and those with additional needs. (Policy IN.1 Housing). We believe this policy has not been met. 13) The NP design guide clearly states that development should ensure that it respects the local character of the area. We believe that this particular development fails to meet this requirement and is completely 'out of sync' with the surrounding properties. The application fails to meet the requirements of Policy DG1. We are also very aware that the boundary of 3 Stowford Cottages is only about 10 metres from Stowford House Care Home where all the residents are elderly and on the ground floor there are many patients with Dementia. We are concerned that any extra noise created from an 8 bedroom HMO could adversely affect the health of some of the Care Home residents. As set out above St Helen Without Parish Council believe this application is not suitable for this site, is incorrectly submitted and founded on incorrect information. We are also very concerned by all the work to change the property into an 8 bedroom HMO is knowingly proceeding before planning permission has been considered or granted. This makes a mockery of the due planning process and needs to be stopped. It is our view that the property, 3 Stowford Cottages should remain as one family house and if this application does not receive planning permission then the Vale must ensure the property is returned to a 4 bedroom family house without delay. Accordingly SHWPC Strongly Objects to Planning Application P22/V1380/FUL.</p>
